

# BioPark grassroots support network

Your voice makes a difference!

The New Mexico BioPark Society's Grassroots Support Network is a network of individuals who are passionate about the ABQ BioPark's Zoo, Aquarium, Botanic Garden, and Tingley Beach, and are willing to make their voices heard by asking for support when needed.

As a member, you will be contacted from time to time for assistance in the following areas:

- To help lobby our City Councilors and/or Mayor for items coming up for bond election, budget concerns, etc. This may include writing or making calls to City Councilors, the Mayor and / or attending City Council meetings
- To solicit support when we need speakers and or bodies to attend legislative sessions in Santa Fe
- To call to action in the event we have negative press and need community support response
- To be available to rally if a (anti-zoo / Aquarium) radical group targets our facility

---

We are not asking for you to commit to help with every project. We are, however, asking if you are willing to receive information and choose for yourself on a case by case basis which calls to action you are willing to support.

---

I am interested in supporting: *(check all that apply)*

- Albuquerque Aquarium
- Rio Grande Zoo
- Rio Grande Botanic Garden
- Tingley Beach

I am especially passionate about: \_\_\_\_\_

I can also help with: \_\_\_\_\_
